## IN THE MATTER OF MORROW PACIFIC PROJECT

Port of Morrow Representative Greg Smith reported the following:

Port of Morrow is partnering with Ambre Energy on the Morrow Pacific Project to transport low sulfur content coal from the Powder River Basin in Wyoming destined for Japan, Korea and Taiwan.

Coal will be railed from Gillette Wyoming in special built dust free rail cars to the Port of Morrow. The product will be stored in covered concrete facilities and loaded into covered trans-loading barges by self-contained conveyor systems which will prevent dust from escaping. Special barges for the project have been ordered.

This project will bring 110 jobs to the local area with average salaries of \$50,000-\$90,000. The company is requesting no special tax breaks, and will bring substantial annual port fees to the Port of Morrow. It was noted multiple tribes have been contacted to gain support of this project. Discussion occurred on the permitting of the project and concerns over the Port of Arlington's unsuccessful dock project. It was noted Eastern Coast states do not support this endeavor. This type of transportation of coal is successful and profitable in Canada.

Smith asked the Court for a letter of support to submit to the Corps of Engineers who are the permitting agency. Commissioner Gronquist asked for correspondence ensuring Gilliam residents would be considered for employment at the facility. Smith concurred and will provide the Court with a sample support letter. Smith will report back to County Court on the progress of this project which will potentially begin operations in mid-2013.

## IN THE MATTER OF COURT MEMBER REPORTS

Judge Shaw opened the discussion on NORCOR funding formula which is currently based on percentage, if changed to a population base formula it would be less money for all counties except Hood River. It would increase Hood River annual contribution approximately \$129,000. She will be attending a NORCOR board meeting tomorrow which has been convened by Hood River to discuss funding options.

Sheriff Gary Bettencourt reported the by-laws state if a county within a 190 partnership agreement choose not to uphold their financial responsibility, they may be voted out of the agreement. If this occurs Hood River would be required to move their inmates, or negotiate a bed rental rate which will be higher than their present rate. Hood River will still be responsible for their bond obligation. The NORCOR Board offered Hood River County a promissory note for the \$173,000 they currently owe. Hood River declined the offer. Matter may go to arbitration.
